Plot Mountain: 3 ways

Interactive Digital Graphic Organizer

Subjects:

ELA

Grade Levels:

Upper elementary
Middle School

Skills:

Plot structure
Fiction
Story Elements

Objectives

- Students will use what they know about the elements of plot (exposition, rising action, climax, falling action, resolution) to either define the parts or plot a story.
- Three templates allow for differentiation or to be used for different types of activities
- Students can use visuals to help reinforce the concepts

**There are
three
templates
to choose
from**

Show the parts of a plot by using images

Life Long Learners
education through connections

Plot Mountain

1. Drag the plot mountain words to their places on the diagram
2. Using the text you have read, place an image that shows what happened in that part of the story

exposition
climax
rising action
falling action
resolution

This template can be used for a quick check to see if students know the parts of plot and can show a snapshot or scene of a story. Have students use insert>image>search the web or insert images from royalty free images on [pixabay](https://pixabay.com) or [photos for class](https://photosforclass.com)

Show the parts of plot and use text to describe plot of your story

Life Long Learners
education through connections

Plot Mountain

1. Drag the plot mountain words to their places on the diagram
2. Using the text you have read, describe each of these parts of your story
3. Write the title of your story/book in the Title Box

exposition
climax
rising action
falling action
resolution

This template can be used for placing parts of plot and then describing the parts of their story they have read in the correct place.
